Grell Ascension Meeting 2018

Trento, May 16th – 18th 2018

"It's an honour for the Provincial Agency for Health Services to host the annual GRELL meeting.

The aim of this event is to check and create the conditions for a correct development of the Tumour Registry and Cancer Epidemiology in Latin countries for an efficient struggle against cancer, one of the major health problems of the modern world.

I wish that this event will stimulate the discussion about new ideas and projects of scientific research, also aimed to creating a collaborative environment and a positive exchange between member countries.

Welcome to Trento and good luck for your work!"
